

# ZEGUL GREENLAND T

## ABOUT GREENLAND T

---

Greenland series is inspired by genuine skin-on-frame Greenland hunting kayaks. With the classic lines and low volume traditional design, the Greenland is extremely responsive to paddler's input. Zegul Greenland style kayak has particularly low volume and a tight fit to your body, which gives you full control and brings you closer to the water than ever. The kayak has a hard chine all the way along the V-bottomed hull and high rocker to ease maneuvers. The Zegul Greenland series is designed for paddlers who want a traditional style kayak and make eskimo rolls look easy.

Zegul Greenland T is a classic Greenland style kayak with a slightly roomier design suitable for longer daytrips, without sacrificing the true characteristics of the famous Greenland kayaks.

The Greenland series kayaks are equipped with a retractable skeg. The Greenland T and GT are both available in Zegul A-Core lay-up.
