

# ZEGUL ORMEN LV

## ABOUT ORMEN LV

---

Ormen series kayaks are suitable for everyone from beginners to advanced paddlers. These kayaks are easy to maneuver and stable. Ormen series features 3 different sized kayaks suitable for every paddler. Ormen series kayaks have a hard chine hull that provides great stability.

Ormen LV is a stable day-touring kayak for beginner to intermediate paddlers to build confidence and develop skills. This kayak has a comfortable and generous sized cockpit making it easier to enter and exit the boat. Short length keeps it maneuverable and also very easy to handle outside the water. Best suited for kayaking in inland waters.

Ormen series kayaks are equipped with SmartTrack rudder and retractable skeg. Ormen LV, MV and HV are available in single-layer HDPE. Zegul 1-layer HDPE lay-up is made using only a single layer of high density polyethylene. We have upgraded our PE material so that the single layer is very stiff and durable, yet it is lighter than the other 2- or 3-layer constructions.

## FEATURES

---

Material	PE
PCS	No
Length	425 cm (13'9")
Width	65 cm (25")
volume	No
Capacity Approx	135 kg (298 lbs)
