

ZEGUL DREKI HV

ABOUT DREKI HV

Dreki series kayaks meet the needs of a wide range of paddlers. These kayaks are for paddlers looking for stable onwater experience rather than getting wet through a playful day on the water. The hull has a flat V-design, which provides high initial stability. The Dreki series is intended to be paddled in calmer inland waters.

The Dreki HV is a perfect recreational kayak for those looking for a stress free paddle. It is roomy and stable, with an extremely long waterline providing good speed and glide. It is designed for a medium to large size paddler, who wants to enjoy a roomier cockpit.

The Dreki series kayaks are equipped with a SmartTrack rudder and a retractable skeg. The Dreki MV and HV are available in lightweight A-Core LT lay-up, which means these kayaks are extra light.

FEATURES

Material	Composite
