

TAHE MARINE WIND DUO

ABOUT WIND DUO

This kayak is designed to be the fastest tandem in the Tahe Marine range, what can be used for complex competitions and sea kayak races.

The racing features do not hinder this kayak to be used in shorter sea touring trips. The kayak is designed with shallow V-shape and round edges which secure fast acceleration and high end speed. The tracking of this kayak, due to the hull design is excellent. Thanks to the length and the hull design this kayak is first and foremost designed for experienced to expert paddlers. Wind Duo kayak is equipped in standard with rudder.
